

HYPEM Project
Ethical and legal protocol of the research

In accordance with the General Data Protection Regulation and the amended French Data Protection Act of 6 January 1978, this project was registered with the Data Protection Officer of the University of Lille under the number 202104.

The protocol was validated by the University of Lille's ethics committee under number 2021-475-S91 (see below).

Ethics Committee in Experimental Human Sciences

President:

Yvonne DELEVOYE-TURRELL

Vice-president:

Cédric PATIN

Administrative staff:

Stella BOUAMRIRENE

Tel: 03 -62- 26- 80- 82

E-mail: Stella.Bouamrirene@univ-Lille.fr

Villeneuve d'Ascq, March 9th 2021

Ethics committee reference:	2021-475-S91
Code name:	HYPEM
Version number and date:	Version 2 of 08/03/2021
Legal institution:	ULILLE-SVS
Principle Investigator:	François POTDEVIN

Date of submission:	08/03/2021
Date of the ethics committee meeting:	09/03/2021
Decision of the Ethical committee: Favorable	
<i>The protocol is accepted as is. If for any reason you wish to modify the protocol (in terms of e.g., timing, inclusion of a new group), you are required to inform the ethics committee by sending an addendum explaining the reasons but also changes to the original protocol. This amendment will be reassessed by the ethics committee.</i>	
<i>The opinion of CER-Lille does not exempt from regulatory formalities. In this regard, it is your responsibility in particular, if you process data relating to a directly or indirectly identifiable individual, to comply with the European data protection regulations (RGPD) in application since 2018. For this, you can request the advice from the Data Protection Officer (DPO) or the legal department of your university or of your research organization. The ethics committee reiterates the obligation to register in the university processing register any processing of personal data in accordance with Article 30 of the General Data Protection Regulations.</i>	
<i>With this favorable evaluation, CER U-Lille does not comment on compliance with barrier measures against Covid-19. In order to protect participants and researchers, the bodies responsible for research must imperatively comply with the measures recommended for all on-site and off-site research by the supervisory bodies hosting the research.</i>
